

CHRISTOPHER SMOAK

ui developer

christopher.smoak@gmail.com
<http://christophersmoak.me>

Objective: To obtain a full time position in UI development that would allow me to expand my leadership and entrepreneurial skills and contribute to the company's growth.

Experience

UI Developer @ NextGear Capital February 2015 - Present

- Develop testable AngularJS components for the NextGear Capital product line.
- Work with QA engineers to write automated api, e2e (end to end), and unit tests used for continuous integration.
- Participate in communities of practice, pair program, and perform peer code reviews to ensure codebase continues to align with company's high standards.
- Communicate with product owners and UX team to ensure requirements are met with final deliverables.
- Contribute to cross project libraries used by many agile teams.

Web Developer @ Hubzero, Purdue University May 2010 - February 2015

- Design & develop new functionality for the Hubzero platform, an open source project.
- Designed & developed an iPad application for nanoHUB.org from the ground up with no previous knowledge with Objective-C or iOS.
- Worked as a team to maintain & support 20+ websites (hubs) that are managed by Hubzero.

Freelance Web Developer/Designer January 2008 - Present

Education

BS Computer Graphics Technology
Certificate of Entrepreneurship
Purdue University
